EDUCATION

PES University

Dec 2021- Present

Bachelor of Technology in Computer Science and Engineering

VII SGPA: 9.8, GPA: 8.25/10.

Coursework: Object Orientation, DBMS, Big Data, Machine Intelligence, Algorithms for Intelligent Web and Information Retrieval

Awards: Distinction Scholarship

National Public School

May 2019- May 2021

High School, GPA: 9.6/10

Mother's Public School

Apr 2018- Mar 2021

Class: X, GPA: 9.8

SKILLS

Programming Languages- Python(proficient) , Java, C, R

ML /libraries/framework/tools- Pandas, scikit-learn, numpy, open-cv, matplotlib, hadoop, kafka, streamlit, figma,

ros2(Beginner), webots, gazebo, mediapipe, langchain

Cloud/Web/Databases- AWS, Docker, SQL, Microsoft PowerApps

EXPERIENCE

Boomi

Enterprise Applications Intern

Bangalore, India

Jan 2025-Jun 2025

HOUZEE

SDE Intern

Bangalore, India

Jun 2024- Aug 2024

- Developing cross-platform mobile applications , reaching a wider audience, intuitive UI components.

PES University

Teaching assistant

Bangalore, India

Mar 2024-May 2024

- Curate competitive challenges, Problem solving exercises, assignments for students.

PROJECTS

Tailored Insights- ongoing

AWS,langchain NLTK tools,flask, html, css

- a platform that helps people learn about current affairs, and provides an efficient recommendation based on time data and collaborative filtering
- Discussion forum along with QA model (A quiz model) maintains more user engagement.

TradeWave(component of Tailored Insights) - ongoing

AWS, kafka

- Real time data analysis, leveraging streaming technologies to provide instant insights

Caesar Cipher(04/2024)

JAVA, Vaadin

- Hash- SHA256
- Morse Encoder and Decoder

Relay PRO (03/2024-04/2024)

React, APIs, Flask, ML,mysql

- A web platform designed to offers a suite of tools and resources designed to enhance public speaking skills.
- core components include: Speech Analysis Engine, Training Modules, Discussion forum, Stage speaking LLM.

SignSpeak (11/2023)

Streamlit, Python, mediapipe, mysql

- A web platform designed to offer interactive sign language tutorials.
- featuring real-time feedback and corrections

- Sends a message between vehicles: The user can select a sender vehicle, recipient vehicle, and enter a message. The message is added to a block and mined.
- Print the V2V communication blockchain: The program displays the status of the blockchain, including validity and the details of each block.

ACHIEVEMENTS

- Top 4 out of 80+ teams in an Ideathon related to health domain.
- microsoft learn badge- AI fundamental concepts: <https://learn.microsoft.com/api/achievements/share/en-us/TanishaDas-8463/PSM7XKB4?sharingId=C54776AE9C7483B3>
- cloudcomputing-<https://learn.microsoft.com/api/achievements/share/en-us/TanishaDas-8463/F2863LEX?sharingId=C54776AE9C7483B3>
- Hackerrank problem solving -python -<https://www.hackerrank.com/certificates/iframe/4aefb933b8ec>
-sql: <https://www.hackerrank.com/certificates/af189acaf95d>
