EDUCATION

PES University Bachelor of Technology in Computer Science and Engineering VII SGPA: 9.8, GPA: 8.25/10. Coursework: Object Orientation, DBMS, Big Data, Machine Intelligence, Algorithms for Intelligent Web and Information Retrieval Awards: Distinction Scholarship	Dec 2021- Present
National Public School High School, GPA: 9.6/10	May 2019- May 2021
Mother's Public School Class: X, GPA: 9.8	Apr 2018- Mar 2021

SKILLS

Programming Languages- Python(proficient) , Java, C, R
ML /libraries/framework/tools- Pandas, scikit-learn, numpy, open-cv, matplotlib, hadoop, kafka, streamlit, figma, ros2(Beginner), webots, gazebo, mediapipe, langchain
Cloud/Web/Databases- AWS, Docker, SQL, Microsoft PowerApps

EXPERIENCE

Boomi Enterprise Applications Intern	Bangalore, India Jan 2025-Jun 2025
HOUZEE SDE Intern Developing cross-platform mobile applications , reaching a wider audience, intuitive UI components.	Bangalore, India Jun 2024- Aug 2024
PES University Teaching assistant Curate competitive challenges, Problem solving exercises, assignments for students.	Bangalore, India Mar 2024-May 2024

PROJECTS

Tailored Insights- ongoing - a platform that helps people learn about current affairs, and provides an efficient recommendation based on time data and collaborative filtering - Discussion forum along with QA model (A quiz model) maintains more user engagement.	AWS,langchain NLTK tools,flask, html, css
TradeWave(component of Tailored Insights) - ongoing Real time data analysis, leveraging streaming technologies to provide instant insights	AWS, kafka
Caesar Cipher(04/2024) - Hash- SHA256 - Morse Encoder and Decoder	JAVA, Vaadin
Relay PRO (03/2024-04/2024) - A web platform designed to offers a suite of tools and resources designed to enhance public speaking skills. - core components include: Speech Analysis Engine, Training Modules, Discussion forum, Stage speaking LLM.	React, APIs, Flask, ML,mysql
SignSpeak (11/2023) - A web platform designed to offer interactive sign language tutorials. - featuring real-time feedback and corrections	Streamlit, Python, mediapipe, mysql
AutoLedger (07/2023) - Sends a message between vehicles: The user can select a sender vehicle, recipient vehicle, and enter a message. The message is added to a block and mined. - Print the V2V communication blockchain	Python, Blockchain concepts

ACHIEVEMENTS

- Top 4 out of 80+ teams in an Ideathon related to health domain.
- microsoft learn badge- AI fundamental concepts: <https://learn.microsoft.com/api/achievements/share/en-us/TanishaDas-8463/PSM7XKB4?sharingId=C54776AE9C7483B3>
- cloudcomputing-<https://learn.microsoft.com/api/achievements/share/en-us/TanishaDas-8463/F2863LEX?sharingId=C54776AE9C7483B3>
- Hackerrank problem solving -python -[https://www.hackerrank.com/certificates/iframe/4aefb933b8ec](https://www.hackerrank.com/certificates/iframe/4aefb933b8ec-sql)
